- Input from an LTN Partner Studio and Connected Locations Worldwide

## LTN MANAGED DIGITAL DISTRIBUTION PACKAGE

LTN can publish your video feed anywhere - whether it is through digital distribution to your owned and operated digital platform or social platforms like Facebook, Vimeo or YouTube - or by high quality, ultra low latency, distribution on the LTN Network to locations like television stations, LTN partner studios, networks, switching hubs/teleports or directly into public clouds.

### LTN MANAGED DIGITAL DISTRIBUTION

- Content Delivery Network (CDN)
- Multi Platform Video Player
- Digital Transcode

### OPTIONAL SERVICES:

- LTN Linear Distribution
- LTN Digital Distribution
- LTN Partner Studio Access
- Closed Captioning
- Additional Production Hours

LTN's suite of Virtual Conferences and Events packages are provided as complete managed services. The entire production is managed from initial project management through event day production to delivery monitoring. The entire process is provided by our team or media production professionals and supported by our dual 24/7/365 Network Operations Centers.

LTN Global is a worldwide leader in media technology that positions broadcasters and digital content companies to win the future of video. LTN's digital media ecosystem unifies, optimizes and automates video workflows, empowering users to acquire, transform and deliver content at scale.
