

LTN virtual conferences and events

LTN

Uncertain times, reliable remote event solutions

LTN® virtual conferences advance businesses and reach attendees around the world

Complete conference and seminar support

Opportunity

With a targeted suite of LTN solutions, you can eliminate the threats that travel constraints pose to your business objectives and operations:

- Low attendance projections
- Scheduled event cancellations
- Remote participant disengagement

Benefits

Through live video and interactivity, remote conferences provide the same benefits as in-person sessions with significantly lower expense and risk:

- Networking
- Product demonstrations
- Learning and accreditation

Solution

Uniquely positioned to produce and manage video-rich remote events

LTN offers the unparalleled combination of digital media workflows, an ultra-low-latency video transport network, and a broadcast-quality centralized production solution serving all verticals and market segments.

LTN Virtual Conferences and Events are backed by LTN Transport, our revolutionary IP delivery solution, widely adopted by enterprise content producers and broadcasters, major media companies, and innovative content creators.

Live video transport

Using an LTN Flypack or other connectivity tool

Production and post-production

Including crew, gear, vehicles, closed captioning, clipping, craft editing, and archiving

Global footprint

3,000+ connected venues to host speakers, presenters, and trainers

Webinar and viewer portal

Live or on-demand, including registration, accreditation data collection, and real-time Q&A

Playout and measurement

Embeddable multi-platform video player, CDN, and analytics
